

**ATLAS**SUSTAINABLE PROCUREMENT
SOLUTIONS LLC

CAPABILITY STATEMENT

Engineering-led procurement · Domestic supplier
qualification

COMPANY OVERVIEW

Atlas Sustainable Procurement Solutions LLC is an engineering-led procurement consultancy based in North Miami, Florida. We help U.S. manufacturers add domestic suppliers for stamped and formed steel and aluminum parts, and prove with measured evidence that a new shop can make the part to drawing, consistently, at production volume. Our method, the Domestic Source Qualification Protocol (DSQP), is published openly under CC BY 4.0.

CORE COMPETENCIES

- Supplier technical qualification: requirements matrix, shop capability assessment, first articles, production trial
- Measurement system review and process capability analysis (stability, Ppk, zero-failure attribute plans)
- First-article troubleshooting and corrective-action coordination for forming defects
- Process-based should-cost analysis (material yield, operations, tooling, scrap, logistics)
- Purchasing and supplier-quality controls: change notification, re-approval, 90-day monitoring, scorecards
- Supplier audit readiness for customer and certification audits
- Critical-material supply chain and design-for-domestic-sourcing reviews
- Supplier data for EU REACH and CBAM requirements

DIFFERENTIATORS

- **Open method.** DSQP v1.0 is freely published (DOI 10.5281/zenodo.23090265), with a free browser-based Workbench.
- **Risk-scaled evidence.** Sample plans and targets scale with part risk (Level A, B, C).
- **Engineering and procurement in one.** Technical approval is written into purchasing terms with change control.
- **Client authority preserved.** Your engineers decide; accredited labs and licensed professionals do credentialed work.

FOUNDER

Taylan Iscan, Founder and Principal. B.S. Mechanical Engineering. 16+ years in engineering-driven procurement and supplier qualification with global manufacturers including BSH Home Appliances, Kordsa Global and AkzoNobel. Author of DSQP.

COMPANY DATA

LEGAL NAME	Atlas Sustainable Procurement Solutions LLC
TYPE	Limited liability company
ADDRESS	12864 Biscayne Blvd North Miami, FL 33181
SERVICE AREA	United States; on-site focus FL, TX, CA

NAICS CODES

541330	Engineering Services
541611	Administrative Management and General Management Consulting Services
541614	Process, Physical Distribution, and Logistics Consulting Services
541690	Other Scientific and Technical Consulting Services

INDUSTRIES

Grid and electrical equipment · HVAC · Appliances · Industrial and agricultural equipment · Fabricated assemblies

PARTS AND PROCESSES

Sheet and strip steel (incl. coated) and aluminum: blanking, piercing, bending, forming, drawing, progressive-die stamping; simple welded or hardware-inserted assemblies.
